free on application. ORDERS FROM ONE PERSON \$5 TO \$10 ALLOWED 25 PER CENT. DISCOUNT. Orders from One Person over \$10 allower AN EXTRA 5 PER CENT. DISCOUNT.

SINGLE PACKETS AT LIST PRICES.

WE GUARANTEE That all seeds sold by us shall prove to be represented, to the extent that should they not do so, we will replace them or send other seeds to the same value. But we cannot guarantee the crop any further than the above offer, as there are so many causes which operate unfavourably in the germination of seeds | Chater, although he has been accustomed in a tropical climate, over which we have to a good deal of fawning subserviency no control. Among the causes of failure may be mentioned unfavourable weather, which is one of the most important. The soil may be in proper condition when the seed is planted, but the weather which follows may be too wet, which will cause the seed to rot; or it may be too hot and dry, which destroys the germ before it shows itself. The soil may also be unfavourable for the variety of seed planted And lastly, the seeds may be and are frequently destroyed by vermin of various kinds. Such occurrences are beyond the power of man to prevent, and for which we

cannot be responsible. Hongkong, 4th September, 1889.

We East we can say this that accuracy was in | can hardly think so, for to start an enterinverse proportion to sensation. Not many prize on such a motive would not be woryears ago a Frenchman wrote a book on thy of Mr Chater's honorable record, and China, which was very delightful reading. he, we are sure, better than most others It was not of the ponderous sort which must know that schemes laid on such a only students of sociology or ancient his. foundation generally come to grief, Fortory would tackle, but light, airy, spark, tune is a fickle jade, and luck sometimes ling, such as a boulvardier might take takes unexpected turns. pleasure in reading as he sipped his coffee at the cafe. It was a very readable book, the only fault it had was its title. The

word 'China' ought to have been omitted. We do not say that the letters of Mr Henry Norman contain so large a proportion of the imaginative as the work of the facile Frenchman, but his descriptions are almost equally misleading. His first article on Hongkong was simply a caricature of the place, and his subsequent offusions must have appeared ridiculous to svery one who

has lived for a short time in the Colony. And it could not wall be otherwise. The Commissioner' stays here a few weeks, makes the acquaintance of several residents who talk to him of what is going on in the Colony. With no knowledge of the past history of Hongkong, and with no experience such as is gained by prolonged re-

sidence in the place, he falls into the error

According to a society paper, luncheon is to take the place of late dinner as a social function As time goes on, the dinner will become merely a light supper; and fashionable people, recurring to the habits of their forefathers, will take their most serious meal in the middle of the day. This is likely enough, no doubt unless society adopts Mr Lewis Carroll's hint and gets into the babit of dining next day : but the institution of a heavy luncheon will hardly suit the great middle class, which works with its head. The idler may lunch well and wisely at 2 p.m., but not the busy man.

THE NEW 12-POUNDER GUN. -- We are fully justified in affirming that the new 12pounder gun is not morely equal but superior to any field-gun in Europe. A good gun is not, however, the only condition of success: and if the powder of modern shrapnel fire is to be fully developed on the next field of battle, it remains to take care that the organisation and tactical training of the personnel are such as to guarantee the best possible results being obtained from a muterial which the efforts of science have laboured so long and so successfully

GOVERNOR Sir A. E. Havelock-we now learn authoritatively—does, not come out to Ceylon before the middle of next year. Sir Arthur Gordon fixed that term to his administration some time ago; and it was with the full knowledge of the fact that Lord Knutsford had appointed his successor. But there has really been no departure from precedent: for Sir Arthur Gordon himself was nominated some ton or eleven months before he took up the reins of Government here; and no doubt Lord Knutsford, as we hinted before, was desirous of being spared further inquiries and applications by settling at this time. who was to be the next Governor of the first of Crown Colonies.—Ceylon Observer.

Banking business at home has been in a very satisfactory condition during the past half year. The nine principal purely London Joint Stock Banks have made £70,000 more during the six months than they did during the corresponding period of last year. The margin between the rate they have allowed for deposits and the charge they have made for advances has been greater. Nevertheless, husiness is not as good in this respect as it was tome years ago. The capital has increased, but the percentage of | Leigh and the Sanitary Surveyor, left over profits has decreased. Only one of these nine joint stock banks.—the London and South Western,-pays a larger dividend than in 1882. The capital and reserve fund of the London and Westminister have been increased by nearly a million and a half sterling within the past seven years, yet its net profit is £2.0 0 less this year than it was for the corresponding half-year in 1882, and its dividend is two per cent.

THE Hotel quarter of London has been gradually shifting southward and westwards. Time was when Holborn was its centre; then it moved to Covent Garden: then to Bond-street and Piccadilly; later to Charing-cross; and now it seems to have gone to Northumberland avenue and the Thames Embankment. The opening of the mag- he received an acknowledgment; and as he nificent new Savoy Hotel establishes another aplendid 'caravanserai'-as the lady novelists used to say-on our riverside sity for strict observance of the by-laws he pear to to indicate that the gentlemen referboulevard. The Savoy Hotel stands on might take the opportunity to remark that what may lay some claim to the muchabused title of the noblest site in Europe. The view of the river, Somerset House, and by-laws, insemuch as it did not state. the bridges, and Westminster building, is whother the plans sent were approved absolutely unique; and if the Lambeth factories and the railway stations are not ideally beautiful they add a distinctiveness | have done. On the 14th July he sent the and character of their own. The Savoy Hotel, with its magnificent provision of space, air, and light, should do as well as most of its even larger and more sumptuous | that he added a special note, stating that it rivals. The foreigner and the stranger will be glad to spend his sojourn in the metropolis in so noble a position. As for be covered in as early as possible, and rethe Londoner, he is not greatly interested in hotels; but he may be at least gratified to think that the splendid desert of the Thames Embankment is at last being lined | along the top of a high bank which had with stately and handsome buildings.

WRITING of Shanghai, Mr A. Melville White, of Colombo, says:—And now as to tes. There is no doubt that buyers in as it was a matter in which thousands of China are well aways of the danger to their tea trade from the increase in production in India and Cevion, but especially Cevion. charge of the tea department of a large firm in Shanghai, and we tasted together a lot of best China teas and some Ceylone after this when he got the reply from the which I had. The Chinas were valued at | Sanitary Surveyor, and that was a letter about double what I believe to be the value of the Ceylons, but my friend admitted the Caylons were about as good in spened as a portion had not been inspectleaf, and about 6d. better in infusion. As ed. The by-laws said the inspection should regards liquor I don't quite know what to say; for the two teas are so unlike. - I have never yet seen a China tea with the notice was given, and in the meansharpness, pungency, and strength of time, and as it was a matter of such import-Cevion, and there were no exceptions i (though one of the China teas was valued | ance to have the drains covered, he gave as high as 2/ per lb. (in London). Nor was instructions that it should be done. He I able to see much difference in flavour but the dry leaf China had an aroma which we can't approach in Coylon. Is that acquired artificially? Tes buyers in China are apparently in complete ignorance as to how their tea is grown and manufactured, and I could not elicit any facts as to how object to lay drains badly; his object was China tea was so lacking in 'grip,' or how its (supposed) keeping qualities were im parted or acquired. Another feature which struck my friend and myself was the much | him. He had asked his overseer if the brighter liquor of the Ceylons. I think that drain had been inspected, and he was told possibly the firing has something to do with this as well as with the keeping qualities and it was all right with the exception of one the softness of China teas. But facts are manhole. He was not aware to this day not to be had (I am speaking of black teas what objection there was to the drains, as of course). One fact I did elicit, unimportant as it may seem, and that is that he had nothing before him to show the American market demands a package Therefore at the end of the three days not larger than our half-chests and neatly put up in strew matting.... Curiously. enough this has been confirmed by a gentleman I have met on board this ship. a tea buyer for a Montreal firm travelling for his health. Query, would it be very expensive to unport that matting of a size suitable to our chosts, or could it be purchased cheaper locally! It seems a small matter, but it is not one which Chinese merchants overlook and why should we! The gentleman above referred had any opportunity of seeing the drain, dispense with it. to assures me that the use of Ceylon tea is rapidly spreading in the States and Canada. and he does not think there will be much | required to ba done. It was quite true actual opposition to its introduction, but he maintains the Americans won't be forced into suything ! However. I think he was ! just blowing off a little, and I hope to the works all day to see the pipes put in. get something more out of him. Just before If they did a day's work and then asked had not time to co fully into the matter with him, and could not do more than refer him to our Tea Fund Committee.

> NAVAL SHIPBUILDING. -The First Lord's remarks upon naval shipbuilding are weath repeating :-- To maintain a very large army ontails a two fold demand upon the industries of the country. To have a large army each as those maintained on the Continent necessitates conscription, and conscription means the annual taking away of a large number of men from industrial pursuits. besides throwing the cost of their maintenance upon those who remain in industrial' employment. But in naval expenditure an entirely different aspect is put upon the disbursements which are made. The great bulk of expenditures in the Navy goes in the cost of providing additional ships and other equipments. All that money is spent in England, and it simply takes the shape of might safely be allowed to pass. accelerating and encouraging our first national industry—the building of ships. Therefore the additional naval expenditure, concrete. which for this and the next four public has been aaked bear, all will go back into the pockets of Englishmen, and tend to promote and increase that origin of our greatnessnamely, the shipbuilding industries of the

SANITARY BOARD

The Sanitary Board met this afternoon. There were present :- The Surveyor General (Hon. S. Brown), President; Major-General Gordon, Vice-President; Mr J. I. Francis, Mr N. J. Ede, Dr Ho Kai, The Acting Registrar General (Hon. N. G. Mitchell-Innes), Hon. Wong Shing, and the Sanitary Superintendent (Mr H.

Mr Cooper, the Sanitary Surveyor, and Mr Leigh of Messra Danby and Leigh, were

THE ENFORCEMENT OF THE BOARD'S

BY-LAWS. Consideration of the correspondence on this subject between Messrs Danby and from last meeting, was resumed.

The Secretary read the portion of the correspondence in question relating to the laying of drains on inland lot 1093 and

Mr Francis suggested that Mr Leigh should be asked what remarks he had to make on the subject.

The President said they would be glad to

hear Mr Leigh Mr Leigh said he sent a notice on the 9th June to the Sanitary Surveyor, accompanied: with plaus in duplicate, with regard to the laying of the drains in lot 1093. Of this had had his attention called to the necesthis reply was not in accordance with these or not as, according to by-law 3, it ought to usual printed notice stating that portious of the drains were ready for inspection. To was very necessary that these drains should questing that the inspection should be made at once. The drain in question was laid caused a great deal of trouble and which was the subject of litigation at present between his client and the adjoining proprietor, and dollars were involved it was of the utmost importance that the drain should not be spent some time with the gentleman in left uncovered longer than was absolutely nocessary. It was however seven days requesting that the drain should be retake place within three days of the time submitted to the Board that inspection of the work as it progressed was a reasonable thing to ask in such a case. He wished to point out to the Board that it was not his to lay them well, and the quicker and

> he instructed them to be covered in. The President said he thought they ought to ask Mr Cooper what he had to say in reference to this question after Mr in fault in not communicating sooner with Mr Cooper said that the notice sent in power that made the law could dispense

better they could be laid the better for

Leigh's explanation. referred to only a portion of the drain, and | with it. he had never received another notice nor so that it was impossible to say what was that the notice requested inspection of the work as it proceeded, but he could not be at there all the time the work was proceeding. places.

Mr Francis said he was afraid that the Board was probably more to blame in its Means Danby and Leigh. There was a great deal in what Mr Leigh said as to the difficulties in carrying out these works, week and he was afraid that when the Board were preparing the by-laws they overlooked the point that notice ought to be in some way given to the owner when the Sanitary Surveyor made the inspection,

and what defects there were found to be. He should be very glad indeed -as it was difficult to say which party was to blame in the existing circumstances —if the Board could see its way to allow this drain also to pass, if Mr Cooper said it mightly safely be done without being opened up. Ho was afraid it might be rather a what Mr Leigh had said. As they might

Mr Cooper said as he had had no opportunity of ever seeing the lower portion of the drain, he could not say whether it Mr Leigh, in reply to Mr Francis, said

was a reasonable one.

Mr Leigh said in that case he would have to be sending notices every morning. Mr Francis-That is exactly what Mr Cooper says. I think it is quite reason-

Mr Francis said it could not be helped; t was a necessity of the case.

Mr Leigh said he thought the request he made in this case was a reasonable one. He reminded the Board that the whole Public Health Ordinance was intended to be carried out as carefully as possible as the Governor had publicly stated when it was introduced, and he thought that to carry it out in the manner he comof the measure. If the Sanitary Surveyor had given him notice in this case that he could not inspect the work at the time he was requested to do so, he (Mr Leigh) would have delayed the work; but he got no such notice. If he (the Sanitary Surveyor) had said such and such a portion had been inspected and might be covered up. or such and such a thing required to be done, that would have been satisfactory, but to cut up the whole drain now-a drain situated on such a ticklish bank-for one connection or one | week. manhole, was not right.

After some conversation of a desultory The President said—What is really the present question is to arrive at some decision as to what is to be done in regard to this lot 1093. The question we have at present before us is not as to whether the by-laws are what they should be or not. At present they are the laws by which we are governed, and I don't see how we can go on at all except to enforce the laws in a reasonable spirit and have them carried out. I think the question as to whether these by laws require modification is a separate matter and can be dealt with afterwards, as it ought to be. I may say that the recent correspondence with Meters Dancy and Leigh and other facts which have come to my knowledge as Surveyor General apred to, and possibly others, are of opinion that the by-laws made respecting the inspection of Sanitary works are capable of improvement in detail. As this is a view with which I am not disposed to disthe Community directly interested in this part of the Public Health Ordinance be invited to send in to the Secretary of the Sanitary Board for submission to the Board any suggestions they may wish to make for the amendment of the by-laws. If we hear the views of engineers and architects at d others interested, the whole matter should be brought before the Board, and probably he most convenient course would be to submit this question to the same committee who drafted the by laws. That is a

now is as to what course is to be adopted as regards this lot. Mr. Francis moved that under the cir-

matter of course for the Board to deal

with, but if we know exactly the points

that require amendment we should be

in a much better position for dealing

with the question. Well, that can be

dealt with afterwards: the point before us

The Acting Registrar General asked whether the Sanitary Surveyor was prepared to state there was no danger. Mr Cooper-I take no responsibility at

Mr Ede suggested that the motion should drains. Then the responsibility of sanctioning the drains would be taken from the Sanitary Board. He pointed out that the by-laws did not anthorise the owner or his agent to close the drains after three days. What was said was that three clear dava' notice should be given.

Mr Leigh—Then there would be an a solutely indefinite time for inspection. The President said the Board would be establishing a very dangerous preceden and encouraging other builders to put in drains as they liked and cover them up, if they allowed the drains remain without inspection just as there were no Sanitary Board and no Public Health Ordinance in existence. The Registrar General said it was the Board's duty to safeguard the health

good look that there will be no bad smell. Major-General Gordon could not support Mr Francis' motion without an assurance from the Sanitary Surveyor that the effect of not opening the drains for inspection would not be injurious to public health. any member in favour of enforcing the bylaws but as their by-laws were not satisfactory, and Mr Cooper was to some extent

meantime postponed by the Board for a dry plains of the people.

MR FRANCIS RESOLUTIONS.

Mr. Francis said that considering what had taken place and the letter of the Governor indicating an ad interim state of affairs, he did not intend to propose the first resolution- That the Sanitary Surveyor be directed to make all inspections of drains personally and not by deputy. The correspondence, however, which had been laid before them showed that the Sanitary Surveyor for some time past had been performing his work by means overseers .- Now the Board had absolutely no knowledge of these overseers, and never sauctioned the performance of the Sauitary Surveyor's duties by deputy. He sincerely hoped the Governor's letter indicated the difficult job to open it up now, considering beginning of a new state of affairs. He believed the neglect to inform them see by the resolutions on the card, he was was an oversight due to the fact that the to propose that some steps be taken which existence of a semi-independent body was would possibly obviate anything of this such a novelty in this Colony that the the next province. Likewise the southern placed side by side); its width, 24 flugers [feared. Government did not know well what to do. Would not even a head of a the scourge. Yet this was what was done Then came the strain on the outer embank. of olive wood. The scourging is always to. to the Board. The Sanitary Surveyor was ment on the southern side, and one time of be accompanied by religious invocations; the whole length of the drain was under given two or three other offices and it was heavy rains and winds a break was made the strokes are to be given with moderate Turkish troops in Crete is to be raised to Mr Francis thought Mr Cooper's suggest inconsequence of this that it was neces in the section passing through Ch'i-yang force, the lash not being raised above the thirty thousand men. Disturbances be tion about inspecting the portions of the sary to get him assistants ... Doubtless in work day by day as they were completed its present condition it was absolutely uscessary for the P. W. D. to get the assistance of Mr Cooper, but the Board ought certainly to have been consulted and the Board informed of the qualifications of the assistants. His second resolution was That the Sanitary Surveyor when about Mr Leigh said that could not be done in to inspect dra na give notice to the owner or to the architect of the time when he proposes to make the inspection.'
The Leigh correspondence must have shown the absolute necessity of such instructions. If the Architects or some responsible party did not attend after notice was given they could not complain if they were asked to -open-up their drains. The third resolution he asked leave to withdraw Mr Ede seconded Mr Francis' resolution.

The Registrar General said that as plained of was contrary to the spirit the by-laws were to be referred to the community or those interested they should wait- till the suggestions came in and

The President said the only objection he had was that the Sanitary Surveyor might be asked to inspect overy section of a drain and that would entail an enormous work. Finally it was agreed to slightly alter Mr Francia' motion so that it should not read that the Sanitary Surveyor bimself should necessarily be present at the inpection. The Board then adjourned to this day

CHINESE NOTES.

_The Chung-ngoi-sun-pusays, the Barrister Robinson entered on his duties of acting l Magistrate on the 2nd inst., and disposed of several cases in a brilliant manner which gained universal praise. THE YELLOW RIFER IN

The following letter in N. C. Lady News from Mr Gilbert Red; who may be said to have foretold the recent outbreak of jumbankment, the water rushes through cumstances the drains of lot No. 1093 be | the Yellow River, will doubtless be found very interesting :--

Sir.—In various numbers of your journal. you have discussed some very important questions touching the insprovement of Ultima and especially the regulation of the Yellow River. In one number you urge the read that orders be made to re-open the foreigners of a system of irrigation, and the auggestion is deserving of notice. It is especially on the application of such a (1916). On the former there is no chance system to the waters of the Yellow River that I wish to offer a few comments. The you say, would be lakes which would be large enough to receive the additional water which the Yelliw River brings down at the time of its four annual freshets. This method of utilising the overflow is no doubt a possible and desirable one, and so in a previous letter on this topic I referred to the use of the waters by meany of canals connected with locks. But whether tanks. lakes or canals, or all three it should never be forgetten that such a memod could only be a temporary one, so long as the waters population, must necessarily be severe, as of the river remain constituted as they are at present. The Yellow river is not an ordinary river, for its leading feature is not the Colony and it ought not to pass drains its wandering course or its swift current the plains of Monzolia. Such waters as overflow and pass off into lakes and canals pared to guide the waters and the sediment all down towards the sea and the depths of Mr Francis said he was as strongly as the sea. In a few years the tanks and canals would be largely filled up with the sediment and so be of no use, but by that time the embankments of the River could after to other streams.

doods after all a bane? This is a question

you propound in one of your numbers, and you are amazed at the contradictions. As to facts there seems a contradiction, to be sure. In some places I have visited there are strips of sand some 10 to 20 li wide, on Bayers arrived here last night, after a very which nothing can grow. In other places where floods occurred a few years since there have this spring appeared fine harvest. Now what is the explanation! Neither the one fact nor the other can be dened, but what the reason and the distinction? offer three reasons. First, there is a greater or less amount of sand, and so called the great and the small sand () ()) In the former there is no chance for production except for peanuts; in the other the sand soon sinks into the apil or is scattered abroad by the wind. Beendly as connected with the previous it seems that when a break occurs in an with a swift current and following the iminediate track of the current, there is deposited a vast belt of sand, while over the adjoining country, where there is practically no current, there is deposited but little sand. Thirdly, as the chief reason, the sediment or deposit is of two kinds, mprovement or inauguration under skilled one consisting merely of sand, () and the other of sand and soil united, (172),

for growth, but on the latter there is. With these suggestions on a few points.

Yours very truly, GILBERT REID.

a most cordial reception. DYNAMITE OUTRACE IN ROME. Rome, 20th August.—A dynamite bomb was maliciously thrown through the window of a hall during a concert last night. It exploded, causing injuries, more or less serious, to eight persons,

William arrived here to-day and met with

THE TRIPLE ALLIANUE. London, 17th August .-- Count Kalnoky, Prince Bismarck, and Signor Crispi will Berlin. 18th August.-The interviews here between Prince Bismarck and Count and the fine Rs. 10. No distinction is to be | terms of the Austro-Germanic Treaty

SULLIVAN SENTENCED. London. 18th August. Sullivan, the orisonment

London, 19th August. - John L. Sullivan the pugilist, who was sentenced to a year's imprisonment on account of his prize fight with Kilrain, having appealed against his conviction, has been admitted to bail (31) THE CZAR'S TOUR.

St. Petersburg 18th August .- The Czar starts for Copenhagen on the 23rd instant and thence proceeds to Potsdam on the 16th September. THE DISMISSAL OF BOULANGIST OFFICERS.

Paris. 31st August .- Freydinet, Minister for War, has informed the Cabinet that only one hundred and two officers of the French Army who are notorious Boulangists have been cashiered or otherwise punished. THE NAVAL MANGUVRES.

London, 19th August. - Admiral Tryon has captured three ships belonging to Admiral Baird's attacking fleet off Ushant, Two turret ships, two gapboats, and three; torpedo vessels are guarding the mouth of the Thames, owing to a rumour that Admiral Baird contemplated an attack on the port of London. London, 20th August .- Admiral Tryon

has succeeded in blockeding Admiral Baird and eight ships belonging to the attacking squadron at Queenstown; three ships however managed to run the blockade today and escaped.

London, 20th August .- Frequent minor accidents continue to occur in connection. with the naval mancauvres, which, thus far, have not been very interesting. Numerous smaller craft along the coast have been damaged by coming into collision with the men-of-war.

London, August 23 .- Admiral Tryon's main squadron has gone to Milford Haven. but certain cruisers have been left at sea to act as acouts. Admiral Baird has left Queenstown: his destination is however
